## **Introduction**

**Askmentor.com is an online tutoring service provided by experienced tutors with advanced degrees in mathematics, Physics & chemistry and years of teaching experience at the high school and college level.**

**Askmentor.com shall provide tutors who would be based in India and they shall tutor the students registered on the website and who book for sessions. These tutors could teach from anywhere by logging into the website. Similarly students could log in to the site to take up the sessions from anywhere.**

**The product supports the following functions in order to accomplish the overall goal of e-tutoring:**

- **User Registration**
- **Tutor Registration**
- **Appointment Management**
- **On-line Chat Sessions**
- **White Board Sessions**
- **Membership Upgrades**
- **Collection of payment for sessions**
- **Personalization of tutoring programs**
- **Capturing and Replaying of Session**

## **Product Features**

**This section describes some of the high level features of the product as envisaged.**

### **User Registration**

**Students will be able to register with askmentor.com, and will be able to choose different schemes and solutions that are offered by askmentor.**

**Once students are registered for the site, they can setup appointments, search for tutors and go through online material that is provided by askmentor.com**

### **Tutor Registration**

**Tutors, who would like to use the service of askmentor.com and reach out to thousands of students on the Internet for providing mentoring services, should register with the site. Define strengths and weaknesses and areas that they specialize in. At an additional cost, the tutors would be able to provide a website hosted on askmentor.com (some thing like <http://satish.askmentor.com>) which will include information about the mentor, his/her past sessions, his articles, etc.**

### **Appointment Management System**

**Students and tutors/mentors will be able to schedule appointments, get notifications about appointments, reschedule appointments using the appointment management system.**

### **Online Chat/IM Sessions**

**Students and tutors will be able to chat online without the need for any additional software. An online chat application will ensure that people can login to the site and discuss and share comments online. This will not be Voice enabled for the first release.**

## **White Board Sessions**

**Once a tutor and a few students have setup an appointment for a mentoring session, the tutor will be able to open a Whiteboard session with inbuilt chat feature as described in the screen shot.**

**Students will be able to raise hands to inform the tutor of any questions, etc. They can all chat on a common widget that will display messages to the other participants.**

**The White board will be one way, in the sense that what the tutor is performing on his/her white board will be visible to all the tutors.**

## **Membership upgrades**

**Students and tutors will have different membership levels and will be able to upgrade from one level to another, by extra payment options.**

**The features that will be offered to the members for each membership level will be defined by the client.**

## **Payments for sessions**

**Online credit card payments will be enabled for the students and tutors with payment gateways that the client is ready to subscribe to. some of the online payment gateways include authorize.net, paypal.net, etc.**

## **Personalized Programs**

**Each student will be able to create their own personalized programs at extra costs, which can include multiple sessions between the student and the tutor at a higher rate.**

## **Conclusion**

**Askmentor.com is an on-line service which is meant for mentoring students on the selected subjects.**

**The salient features like User Registration, Tutor Registration, Appointment Management, On-line Chat Sessions, White Board Sessions, Membership Upgrades, Collection of payment for student sessions, Personalization of tutoring programs, Capturing and Replaying of Session makes askmentor.com a unique product in its class.**
