evo360i

A PRODUCT for **wireless communication**

9iSolutions (private) Limited

Published: July 2006

Abstract

Experience wireless communications like never before – without the cell phone! Evo360 will be one of the world's first wristwatch-style wireless handsets – a revolution in wireless communication as we know it today. The handset will be comprised of a waterproof and shock resistant wristwatch that opens up into a fully functional wireless phone enabling users to make and receive phone calls, check emails, and browse the Internet. State-of-the art wireless communications and Bluetooth® technology made it possible to miniaturize the necessary components and create this truly unique device.

Introduction

Evo360i is a cell phone on a wrist- watch compatible for GSM network.

Product Features

This section describes some of the high level features of the product as envisaged.

Design

The Evo360 features a dynamic and sportive style with a clear and accurate design, dazzling dials, and stunning built-in performance. The design of the Evo360 was inspired by an active lifestyle and decisive fashion attributes. The Evo360's chunky case, oversized LCD display, and recessed dials combine ease of use with styling that keeps it all together

Connectivity

The Evo360 got it all. State of the art Bluetooth® technology eliminates the need for traditional headsets or hands-free sets. The supplied ergonomic ear hook ensures secure and crystal clear communication without causing any distraction. The Evo360 will also work well with your PC, PDA, or other mobile computing device. Various synchronization elements allow you to automatically exchange information with your email programs, personal address books, and other directories.

Conclusion

Senohp, Inc will introduce two special editions of the Evo360. The Evo360 Junior will feature an even more progressive design, a built-in gaming console, and GPS tracking capabilities. In conjunction with Senohp's Life-Line services, children can push an emergency button on the device that automatically connects them with a designated emergency number and activates a GPS tracking module. The Evo360 Senior will feature similar capabilities with a more distinctive design. The launch date for both models has still to be determined.
